

## 2. KILL THE DJ

### QUEST 2 WORLD 3

### Quest Objectives:

1. **Compose** (individually, or collaboratively) a playlist on either Spotify or YouTube with tracks from or related to video games. (These might be songs that remind you of games, songs from games, songs about games, songs you think belong in games, song you listen to while playing games, etc.). You should include at least 15 tracks (at least 20 if *collaborative*).
2. **Write a brief** (350-400 word) introduction to your playlist, explaining why you've chosen to include what you have so far. Be sure to address what you see the common effort of the playlist is, and your intended purpose.
3. **Post your playlist** and introduction to your blog or dev-team social media page (if you worked with crewmates– post it to all your logs). If you wish, you may send the link to the GM, and he will include it on our course site!

Completing this Side Quest earns you  
**30 NAPS** and a **Collaboration Badge**.
