

2. STUCK IN THE LOOP

QUEST 2 WORLD 3

Quest Objectives:

1. **Select three to five games** of your choice, and compare how they all explore a single mechanic or narrative element. For example, you might watch the opening cutscene of three games to see how they introduce the plot, or watch three games introduce a key character, or examine how three games create a meaningful player choice.
2. These can be games that you're playing, but it will probably be faster to look up lets plays on YouTube to see how they do this.
3. When you are done, **present your findings (3-5 min.)** or write a post (350+ words) to show what you've uncovered. Be sure to stay focused on takeaways for us as we continue building our games.

*Completing this Side Quest earns you
50 NAPS and a Presentation Badge.*
