

FINAL BOSS | THE HALL OF HEROES

A HERO'S POWER: RE-VISION

A POLISHED PROJECT: 1000 NAPS

You will turn in a final, revised, and polished version of either your CRIT video project, OR your Analog Game Experiment (A.G.E.). Ultimately, you will decide how much time and effort you want to put into that polishing given the resources you have available. A few things to keep in mind:

- You will submit a separate Heads-Up statement for the revision, where you can tell me what it is you decided to focus on.
- Choose the project that you feel the most invested in.
- You may want to use my feedback and/or your peer feedback as a jumping-off point, but that doesn't mean you should just fix what everyone tells you. Think critically about what you're willing to change.
