

3. SETTING THE STAGE

QUEST 3 WORLD 2

Quest Objectives:

1. **Compose a graphic** that illustrates the conversation that you see between the discourse communities you have identified. You might do this as a mind map, a ‘conspiracy board’, a geographical map, etc. You will choose how to represent the different players, and the connections between them. Will you track arguments? Transference of money? “Flashpoints”? Common language?
2. When you are done, you may either **post the graphic** and a brief description to your Public Research Blog *and/or* **include the graphic** in your Discourse Analysis paper.

Note: I will never penalize you for artistic ability. 😊 However, the expectation here is that you’re creating something that you would be willing to include in your academic paper– so it should reflect your best professional effort!

*Completing this Side Quest earns you
50 NAPS.*
