

2. RED VS. BLUE?

QUEST 2 WORLD 2

Quest Objectives:

1. **Investigate** your issue in the context of American political binaries. With your central investigative question in mind, search the discourse of both a liberal and conservative political camp (or two other diametrically opposed groups).
2. **Examine and compare** the discourse from these two camps (Media Bias Chart: [a tool for looking at political publications](#)). What are some of the patterns, commonplaces, focuses, from each group? What are some arguments you see repeated? Write down some of the findings from each of these groups.
3. **Post your findings:** In particular: is there a real conversation happening here? Is political tribalism taking root, and if so, what is its effect? Why has each camp chosen a side in this particular issue? Is there something being missed as a result?

*Completing this Side Quest earns you
50 NAPS and a Research Badge.*
